Experience

Brooklyn Robot Foundry, teacher/design team, 2020-2022+

- Pioneered custom slide templates and inventory management system for designers & teachers, simplifying and enhancing the 'robo-kit' creation process.
- Developed a novel 'inventors' curriculum, consisting of over 40 unique lessons, taught in 6-week-class segments to 10-12 year olds throughout the country.
- Created content for a 6-week astronomy 'Science Lab' course with thorough, interactive lessons for 6-9 year olds.
- Lead-taught virtual robot-building summer classes to groups of 5-12 8-13 year olds.
- Co-taught after-school virtual classes, in-person summer classes, and robot birthday parties.

Ember Username Service, co-founder/software engineer, 2021-2022

- Developed proprietary systems in Python3 to automatically deploy 20-30 servers and spread 60-80 accounts for autoclaiming valuable Minecraft usernames—beating competitors by milliseconds.
- Collaborated to optimize program configurations.
- Led the sales process for 100+ customers with no unresolved customer complaints & produced a unique, automated, Discord-based auction platform.
- Generated over $6,000 in revenue and $3,000 in profits over a single summer, with over 180 accounts sold.

Crystalyn Kae Inc, General Assistant, 2018-2019

- Aided with various studio tasks, such as photoshopping photos of merchandise, heat-stamping logos onto leather bags, applying labels to handbags, and cutting leather strips.
- Helped ideate & design marketing graphics.
- Delivered products and supplies across NYC.

Education

2020-2023

- Bard High School Early College Queens
